## **FOR IMMEDIATE JOINT RELEASE**

### **Concrete Plants, Inc. to Represent Sysdyne Batching Products Exclusively across East Coast**

---

*Stamford, Connecticut – May 31, 2011:* Sysdyne and Concrete Plants, Inc. (CPI) are delighted to announce the new role of CPI as exclusive sales representative for Sysdyne’s concrete batch control products throughout the following east coast states: Maine, New Hampshire, Vermont, New York, Rhode Island, Massachusetts, Connecticut, New Jersey, Pennsylvania, Virginia, West Virginia, Washington D.C., Delaware and North Carolina.

Founded in 1974, CPI has been the leading provider of concrete plants with automated batch control solutions along the east coast. With more than 30 years serving the concrete industry, CPI has developed and maintained profound relationships with concrete producers offering thorough understanding of concrete operations and outstanding customer service.

“It is a great honor to have CPI as our distributor in this region,” says Jill Zhang, President of Sysdyne. “Trust is the foundation of a long-term business relationship, and we believe CPI has established this with its clients. It will certainly fortify Sysdyne’s presence in the area, providing more concrete producers with the opportunity to experience Sysdyne’s batching and dispatching solutions and unparalleled customer care. We look forward to an enduring win-win relationship with CPI in the years to come.”

Founded in 1976, Sysdyne develops, manufactures and supports batch-control systems and dispatch solutions for concrete producers in the U.S. and around the world. Sysdyne excels at providing simple, reliable, flexible and affordable products, and excellent customer service. Sysdyne leads the industry in its application of the newest cloud computing technology to its central dispatch solution, ConcreteGo.com.

“We are impressed by the top-notch quality of Sysdyne’s products and astonishing level of customer satisfaction,” says Dave Knox, President of CPI. “We are pleased to see its tireless efforts in developing products that help concrete producers to reduce its operation costs and increase efficiency. All of these match the principles that CPI holds in its business practices. Sysdyne understands and appreciates the value CPI brings to the equation. Together with Sysdyne, we will provide better products with far better customer supports to our customers.”
