

READY-MIX DISPATCH. SIMPLIFIED.

ConcreteGO, by Sysdyne, stands as the quintessential Cloud-Native Concrete Dispatch product, representing the pinnacle of innovation and efficiency in the industry. With a formidable track record of 700+ plants leveraging its capabilities, ConcreteGO processes over 30 million yards of concrete annually, underscoring its status as a proven, feature-rich dispatch solution.

Key Features and Benefits

Proven Performance

ConcreteGO has solidified its position as a feature-rich dispatch solution, trusted by over 700 plants and facilitating the processing of more than 30 million yards of concrete annually, ensuring reliability and performance at scale.

Stand-Alone Versatility

As a stand-alone product, ConcreteGO seamlessly integrates with any batch software and GPS truck tracking solutions available in the market, offering unparalleled flexibility and compatibility.

Comprehensive Feature Set: ConcreteGO's feature highlights include:

- ▶ **Order Entry and Delivery Tracking:** Streamlined processes and robust tracking capabilities for enhanced operational efficiency.
- ▶ **Division Settings:** Customizable settings for tailoring the system to specific operational requirements.
- ▶ **Smart Search:** Advanced search functionality for expedited access to critical information.
- ▶ **Dynamic Truck Demand Graph:** Real-time visualization of truck demand for proactive planning and resource allocation.
- ▶ **Point-of-Sale:** Streamlined transaction management for seamless customer interactions and sales processing.
- ▶ **Pricing and Escalation Management:** Granular management of pricing and escalation by product, customer, and project for optimized profitability.
- ▶ **Delivery Address Verification:** Automated verification to ensure accurate and reliable delivery processes.
- ▶ **Tax Lookup:** Streamlined tax information retrieval and management.
- ▶ **Quote Module:** Comprehensive tools for generating and managing quotes for customer orders and projects.
- ▶ **SMS Delivery Notices:** Automated delivery notifications for improved **communication**.
- ▶ **Truck Out of Service Notification:** Real-time alerts for proactive management of truck availability and maintenance.
- ▶ **AR/Invoicing:** Advanced modules for efficient account receivable and invoicing processes.
- ▶ **BI Dashboards and Reports:** Actionable, real-time insights through comprehensive business intelligence tools.

Customer Behavior Optimization and Prediction: ConcreteGO offers refined modules for optimizing and predicting customer behavior, driving targeted and effective business strategies based on data-driven insights.

Seamless Integration: ConcreteGO seamlessly integrates with a wide array of systems and platforms, including ERP systems such as SAP, JDE (JD Edwards), ViewPoint, Acumatica, and QC-related systems like Stonemont, Quadrel, Giatec, and AICrete, as well as offering truck scheduling optimization capabilities.

Delivering the value of cloud-native business solutions

Sysdyne is an innovative software company focused on delivering the value of cloud-native business solutions to the Ready-mix Concrete Industry. With a fully integrated cloud-native software suite, Sysdyne offers solutions that cover the entire spectrum of concrete operations including sales, production, delivery management, and billing. Committed to offering the best-in-class customer experience by providing personalized service and solutions to meet customer's specific needs, Sysdyne will grow your business with the latest in technology.
