SIMPLY THE SOLUTION.

Central Dispatch

(Programmable Automation Controller)

A simple web browser login allows dispatchers and batch operators to access critical operational data from anywhere at any time. Access to real-time data improves production, fleet performance, and job delivery. Management teams can more easily reach decisions thanks to key performance indicators (KPIs) and dashboard tools.

Complete Solution for Concrete Dispatch:

☐ Manage Ready-Mix Drivers

☐ Connect Project Stakeholders

☐ Track Concrete Deliveries

☐ Present Paperless Tickets

☐ Timekeeping

☐ Record Water Added

☐ Replay Snail Trails

☐ Draw custom geofences to improve accuracy
